Dear Terry:

The only portfolio I carry these days is that of a Life Insurance Agent.
So, I say to you:

I do not see that your organization is getting sufficient benefit for the money involved in the changes at Route 123/193. You should scrub the entire operation and start again. In five years time these changes will be outdated, while your campus arrangements will still be incomplete.

There is easily seventeen more pages of this argument available upon request.

Best regards,

STAT
